CONNECTION

Connect the mobile phone/tablet to the controller by following the steps below. The controller will automatically connect and power on.

Align the Type-C port with the phone.	
Extend the controller and place the phone inside.	
Release the controller to complete the connection.	

Note: For iOS devices with a Type-C interface, Bluetooth pairing is required after connection.

The maximum stretch size of the controller is 176mm.

COMPATIBILITY

Wired Connection - Supports Android/HarmonyOS phones.

- With wired connection, you can switch modes via the "MoYu Gaming Assistant" app to adapt to different games.

Wired HID Mode

This mode offers the best compatibility with original Android controller games, and it's recommended for original games by default.

Wired Android Direct Play Mode

This mode is primarily used for phone games that don't support original controllers. Initial key mapping requires the use of an app. Once key mapping is completed, the app doesn't need to be opened in the next time.

NS Mode

Supports Switch consoles and emulators.

Xbox Mode

Supports games that originally support controllers, streaming, and emulators, with original vibration mode.

Connection Steps:

1. Extend the controller and place the phone inside. The controller will automatically recognize the wired HID mode by default. The indicator light will flash slowly in white during connection and remain solid white when the connection is successful.

Note: In any Bluetooth mode, you can switch to the wired HID mode by long-pressing the combination keys HOME + A. When successfully switched, the white indicator light will flash slowly, and it will remain solid white when the connection is successful.

Bluetooth Connection - Supports Android phones/HarmonyOS phones/iOS/Tablets

- **Xbox Mode** - Long press the combination keys [HOME] + [X] for 5 seconds - Device Name: Xbox Wireless Controller.
- **NS Mode** - Long press the combination keys [HOME] + [Y] for 5 seconds - Device Name: Pro Controller.

Connection Steps:

1. Extend the controller and place the phone inside, while simultaneously long-pressing HOME + X / HOME + Y for 5 seconds to enter Bluetooth pairing mode. The indicator light will flash quickly in blue.
2. Open the phone settings - Bluetooth - Find the corresponding device name and click to pair. The indicator light will remain solid blue when the connection is successful.
3. For subsequent use, place the controller in the phone, and the controller indicator light will flash slowly in blue and automatically reconnect to the phone.

SLEEP MODE

Sleep Mode: In both wired and Bluetooth modes, the controller will enter sleep mode if left inactive for 10 minutes.

Controller Wake-up: You can wake up the controller and automatically reconnect to the device by clicking the [HOME] button.

JOYSTICK AND TRIGGER CALIBRATION

*During calibration, gently rotate the joystick and lightly press the trigger to its fullest extent to avoid issues such as incomplete joystick/trigger detection.

Joystick Calibration:

1. Press [PS] + [B] + [HOME] simultaneously while in power-on state to initiate calibration. The indicator light will rapidly blink during calibration.
2. Joystick Calibration: Move the joystick slowly to its full extent in all directions, completing at least three full rotations.
3. Finally, press [PS] once to complete the calibration and automatically power off.

Joystick Calibration:

1. Press [PS] + [Y] + [HOME] simultaneously while in power-on state to initiate calibration. The indicator light will rapidly blink during calibration.
2. Trigger Calibration: Press each trigger fully three times.
3. Finally, press [PS] once to complete the calibration and automatically power off.

MOTION SENSING CALIBRATION

1. Simultaneously press the [PS] button + [A] button + [HOME] button to activate the calibration function.
2. Place the controller flat on the table.
3. Press the [PS] button to initiate automatic calibration.
 1. Wait for the controller to automatically power off. This indicates that the calibration process has been completed.

ADVANCED FUNCTIONALITY

Programming Buttons Macros

• Controller Operation:

- . With the controller already connected, simultaneously press the FN + M' /M " key until the indicator light continuously { ashes, indicating th -at you've entered the recording mode. If it doesn't { ash, please repe -at this operation.
- “. Sequentially input the function keys you want to set.
- ” . After setting is completed, press the corresponding macro key (M' /M “). The LOGO light will { ash three times and return to the previous mode.

Clearing the current M' macro:

While the controller is in working status, press FN + M' . The LOGO light will { ash, and then press the Ml key once more. The LOGO light will { ash three times, clearing the current macro. The same steps apply to clearin -g other macro keys.

TURBO Function

Supported TURBO buttons: A/B/X/Y/LB/LT/RB/RT

Manual Turbo Function: Pressing FN + A enables manual turbo function for the A key. You need to manually hold down A to trigger it.

Automatic Turbo Function: After activating the manual turbo function, press FN + A again to enable automatic turbo function for the A key. Pressing FN + A again will disable the rapid-) re function.

- FN + A/B/X/Y/LB/LT/RB/RT can enable the corresponding turbo function for the keys. The indicator light will { ash along with the key when rapid-) re is activated.
- The rapid-) re rate can be adjusted in the app.

Additional customization features can be set in the "MoYu Gaming" As -sistant:

APP Download for Android/HarmonyOS/iOS

’ .Scan the QR code on the right using your browser to access the download page.

“.For HarmonyOS, please download the Android version of the app.

Connection Steps:

Connection Steps:

1. After correctly installing the MoYu Gaming Assistant on your phone, when you first launch it, you'll be prompted to confirm related permissions as per instructions.
2. Connect the controller to your phone, then scan and add the device through the "MoYu Gaming Assistant" app.
3. Once you've found "GP _APP", click to connect.
4. After successful connection, navigate to the "MoYu Station" within the app to access the parameter adjustment interface.

Note: Parameter adjustment via the "MoYu Space Station" is not supported in the wired Android Direct Play mode.

	邻苯二甲酸丁苄酯 (BBP)	○	○	○
	邻苯二甲酸二(2-乙基)己酯 (DEHP)	○	○	○

本表格依据SJ/T 11364-2024的规定编制。

注1:

○: 表示该有害物质在该部件所有均质材料中的含量均满足电器电子产品有害物质限制使用国家标准要求。

×: 表示该有害物质至少在该部件的某一均质材料中的含量不满足电器电子产品有害物质限制使用国家标准要求。

注2:

以上未列出的部件, 表明其有害物质含量均满足电器电子产品有害物质限制使用国家标准要求。

表中标记“×”的部件, 皆因全球技术发展水平限制而无法实现有害物质的替代。

该电子电气产品含有某些有害物质, 在环保使用期限内可以放心使用, 超过环保使用期限之后则应该进入回收循环系统。

《废弃电器电子产品回收处理管理条例》

我公司倡导环保和低碳的消费体验, 建议拥有该产品的用户在不需要此产品时, 应遵守国家废弃电器电子产品回收处理相关法律法规, 将其交给当地具有国家认可的回收处理资质的厂商进行回收处理, 降低资源浪费, 保护地球自然环境。

MACHENIKE产品保修承诺

- 1、在用户按本技术使用说明书正确使用该产品的前提下，本产品自购买之日起一年内免费保修。保修服务方式为返厂维修，报修方式请扫产品包装盒上售后二维码进行报修。
- 2、我方因下列使用者个人的原因而造成的故障将不提供免费保修服务。
如：
 - (1) 擅自拆装、改装该产品而造成的故障；
 - (2) 在使用、搬运的过程中不慎摔打、跌落、进液、供电规格不符而造成的故障；
 - (3) 因缺乏合理的保养而造成的故障；
 - (4) 没有按使用说明书正确指示进行操作；
 - (5) 第三方厂品、服务或行为导致的故障或损坏等等。
- 3、在要求提供免费保修服务时，您必须提供清晰、完整和准确的销售发票和保修卡，购买产品时，可要求销售商提供上述销售发票和保修卡。
- 4、保修范围外的维修服务，将按规定收费。

保修卡

尊敬的用户：

感谢您选购本公司产品,我公司将按照《中华人民共和国消费者权益保护法》和国家技术监督局、国家工商行政管理局、财政部关于《部分商品修理更换退货责任规定》的有关规定，为您提供保修服务，请认真填写此卡并妥善保管，以便日后凭此卡维修。
